NET WT: 19 OZ (1 lb. 3 oz.) 539 g

DESCRIPTION: This product is a powerful carpet spot remover specifically formulated to remove tough spots and stains from carpets instantly, without rubbing or scrubbing. This product is also excellent for removing difficult stains and spots from household carpets.

Eliminates grease, tar, coffee, cola, wine, urine, shoe polish, ink, lipstick, blood, and hundreds of other stains. It is unequalled because of its effectiveness on both oil and water-based stains.

DIRECTIONS: TO USE ON FRESH SPILLS: Blot excess liquid with a clean white absorbent cloth or paper towel. Spray the stain thoroughly, without saturating, while holding the can 6" above the spot. Blot the stain firmly with the absorbent material. Repeat steps until the stain is gone. After stain has been removed, sponge area with cool water. Repeat, then blot area dry. Allow treated area to dry completely.

OLD AND STUBBORN STAINS: Spray the stain thoroughly. Wait sixty seconds for product to begin releasing the stain. Blot the stain firmly with clean absorbent material. Repeat steps until the stain is gone. After stain has been removed, swab area with water using a clean wet cloth and allow to dry. Some stains may require the use of a soft bristle brush, used in a gentle circular motion, to release the stain from the carpet fiber.

NOTE: Other cleaning products available may contain agents which can react to "set" a stain. By using this product first, you assure yourself of full stain removal. We cannot guarantee its effectiveness on stains which have been previously treated with another chemical agent. Stains created by acids, dyes or similar agents are generally permanent and may not be affected by this product.

This product is specifically formulated for use on carpets. Avoid contact with painted or wood surfaces. All carpets, especially wools, should be tested for color fastness.

To test for color fastness: Spray for 3 seconds on a hidden or obscure area of carpet. Allow area to dry completely (at least 12 hours). Do not dry in direct sunlight. Look for color change, if color is affected, do not use.

NOTE: Do not use on leather or suede.

Cautions: Intentional misuse by concentrating and inhaling the product can be harmful or fatal.

KEEP OUT OF REACH OF CHILDREN.
