

AE 640 ROOT CLEAR HF

Sewer Line & Root Cleaner

NET CONTENTS: (540 FL OZ) 5 GALLONS

AE 640 Root Clear HF is a ready to use product. It works within hours of application and provides a heavy foam blanket over the entire surface to keep sewer lines clean and free flowing. When used in conjunction with a program of regular inspection, cleaning and flushing, this product is designed to help keep piping, wells and basins unobstructed, free flowing and clear of deposits.

AE 640 Root Clear HF is a foaming sewer line maintenance chemical used by municipalities to clear obstacles and to keep sewer lines running free.

Root related sewer problems include:

- Sewer stoppages and overflows
- Structural damage caused by growing roots
- Formation of septic pools behind root masses which generate hydrogen sulfide, other gases and odors
- Reduction in hydraulic capacity, and loss of self-scouring velocities.

DIRECTIONS

This product is a ready to use product. Do not dilute. Pour directly into sewer line. Activate with high pressure water supply for additional foaming. Ask Your Alan Environmental Representative For Further Application Instructions.

WARNING

This product is intended for Industrial and institutional use. It can cause irritation and/or damage to eyes and skin. Avoid contact by wearing protective devices such as safety glasses and rubber gloves. If contact to eyes or skin, flush with water for 10–15 minutes. If irritation persists, seek medical attention.

Always read the Material Safety Data Sheet for additional pre-cautions before using this product.
